Jay Donahue - Draft app

- have comments (reverse eng - mining)
- ~~Q~~ - larger - customization?

① internal workings of customization

② toolset - workflow modified

building from ground up.

- need to show how works

- in the screens - it works

- Screen - how to edit a phase

- how to edit a step, phase, question

- can build document internally

Now - just build workflow from ground up

- identify phase, step, question
(no XML)

Demo - edit question type
